RE: **Final Closure**

Commerce # 53959-9444-50 **WDNR BRRTS # 03-57-180979**
Skinner Transfer, 2050 E Main St , Reedsburg

Dear Mr. Hineman:

The Wisconsin Department of Commerce (Commerce) has received all items required as conditions for closure as stated in the April 21, 2003 conditional closure document. This case is now listed as "closed" on the Commerce database and will be included on the Wisconsin Department of Natural Resources (WDNR) Geographic Information System (GIS) Registry of Closed Remediation Sites to address residual soil contamination. It is in your best interest to keep all documentation related to the environmental activities that were conducted.

If residual contamination is encountered in the future, it must be managed in accordance with all applicable State and federal regulations. If it is determined that any remaining contamination poses a threat, the case may be reopened and further investigation or remediation may be required. If applicable, the PECFA claim for this site would also be reopened and you may apply for assistance to the extent of remaining eligibility.

Thank you for your efforts to bring this case to closure. If you have any questions, please contact me in writing at the letterhead address or by telephone at (608) 264-8766.

Sincerely,

A handwritten signature in black ink, appearing to read 'D. Swimm'.

Notification: Skinner Transfer LUST Site, Residual Soil Contamination Notification

Dear Mr. Meyer,

I am writing on behalf of Mr. Mike Hineman to inform you that soil contamination from the Skinner Transfer LUST site exists within the right of way of Warehouse Road.

As part of the required documentation, you are hereby notified that residual petroleum hydrocarbon contamination exists in soil within the right-of-way of Warehouse Road to the west of the Skinner Transfer site. Soil contamination was found to exist in the area of the former bulk petroleum storage facility and appears to be migrating along bedrock surface (approximately 8 feet below surface) toward the west. We are enclosing an unsaturated soil contamination map displaying the inferred extent of soil contamination.

If you have any questions, or require more detailed information, please contact me at METCO's La Crosse office (608) 781-8879.

Sincerely,

Jason T. Powell
Staff Scientist
